HealthcareService - TYPE Classification CodeSystem / Taxonomy

Version: DRAFT

Purpose: for Circulation within AU FHIR TWGs and Comment

## Notes:

Text in green = existing HI taxonomy with alignment to NHSD dataset requirements

Text in blue = NHSD taxonomy added where no HI mapping available.

Struck-Out Concepts are deemed either duplicate, not applicable for classification or irrelevant at a Service Type classification.

FHIR CodeSystem Implementation: Recommendation is to list/define ALL concepts at Level 2 and Level 3 within the HCS.type CodeSystem

HCS.specialties - may be best utilised to support an open list of specialties (primarily display purpose) covering items 4271-2.\*\*\* (or characteristic.OFFERINGS slice)

Org Type - 8401 - Hospitals have been consolidated to a more broader Hospital category - Feedback is sought on this recommendation.

CODES noted as TBC shall be defined following initial round of review.

TBC Codes to follow pattern {primaryCode}-99+-1+ (eg. 8601-99.1, 8601-99.2) -- se Aged Care as Sample

Next Steps: Feedback is requested by Sept 28

Feedback can be shared at https://goo.gl/H7mCyh

Discussions will be held with NCTS to host this CodeSystem under the Healthterminologies namespace...

NHSD will take initial ownership of the maintenance - for approx. 12 months from published date, or unless otherwise agreed with ADHA.
