PATHOLOGY

WANG, Li 29 Gadsby Street Blacktown NSW 2148	Sex Male Date of Birth 03-May-1975 MRN 22421441	Request ID 26-155299-COV-01 By COVID HSC Assessment Clinic
---	--	---

Page 1 of 1

SARS-CoV-2 nucleic acid	Final Report Issued 16-Feb-21 10:00
--------------------------------	--

Latest results			
Collection date	15-Feb-21		
Collection time	12:00		
Request ID	26-155299-COV-01		
Specimen	Nasopharyngeal swab	Reference	Units
SARS-CoV-2 RNA	Not detected		

Interpretation

26-155299-COV-01 15-Feb-21 12:00 Failure to detect virus specific nucleic acid does not always exclude SARS-CoV-2. Repeat testing including a sputum sample if available, may be indicated if clinical suspicion is high. This assay is designed to detect the E gene of SARS-CoV-2, the causative agent of COVID-19 using nucleic acid amplification. On occasions, a second assay targeting the N gene is also utilised.
